OKIOFFICE *84*

Digital LED Multi-function Peripheral

The **OKIOFFICE** *84 brings efficient printing, faxing, scanning, copying and document management to your desktop in one compact machine - opening a new era of convenience and professionalism for home office users and teleworkers.*

It puts a whole range of fast, integrated functions at your fingertips without sacrificing performance, so you can produce high-quality output easily while you save time, space and cost.

Brilliant performance

Although you gain amazing versatility from four machines in one, performance is not compromised: OKIOFFICE *84* is the fastest printing device in its class. With its 8ppm print engine, 14.4k modem for faxes, 6 seconds per page scanning, and 8 copies a minute, you can move quickly through every task.

Quality and crisp printing

OKIOFFICE *84's* technology produces 600dpi-class printing at 8 pages per minute - delivering the crisp, clear results that give your business a professional advantage. Just as important, it's based on Oki's unique Digital LED technology, so along with quality output you get peace of mind from high reliability and low running costs.

Fast faxing

Rapid transmission via a 14.4k modem helps reduce phone charges, while you work quickly and efficiently with features like a 100-sheet paper capacity, 20-sheet automated document feed, and one-touch dialling and speed dialling. In addition, an 80-page memory stores jobs if you run out of paper, or want to send and receive at the same time. A convenient 'instant dial' feature means you can send a fax while scanning, and you can also fax documents direct from your PC (using your Windows desktop and any class one PC fax software).

Rapid scanning

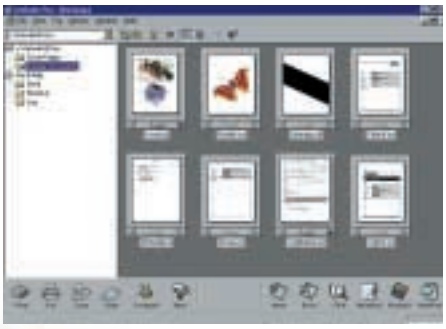
OKIOFFICE *84* puts advanced office functions at your fingertips, and frees up quickly for the next job. You can scan documents and images directly into PC applications (and have them cleaned up from the originals), and turn scanned images into editable files without re-typing.

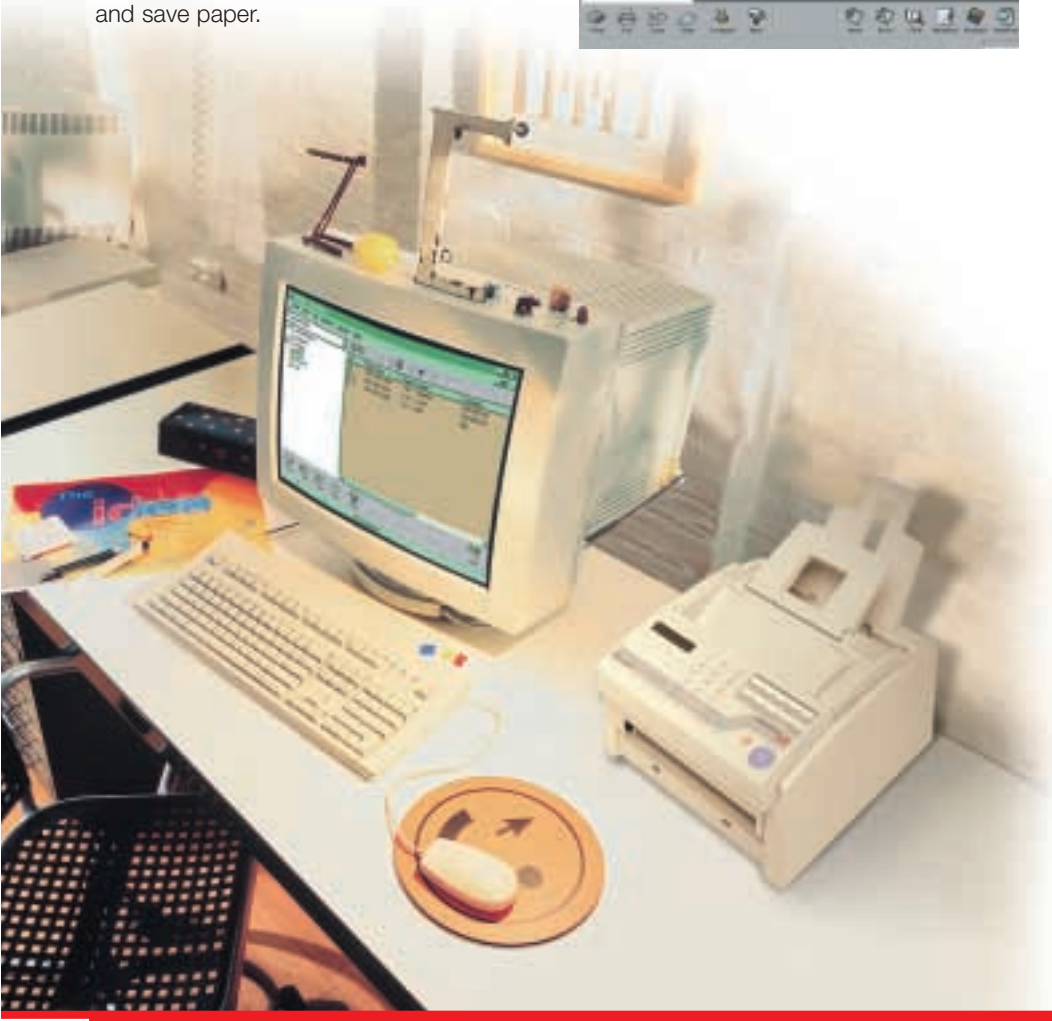
Multiple functions, uncompromising performance

OKIOFFICE *84*

Convenient copying

Suitable for most convenience copier needs with a speed of up to 8cpm, crisp 300dpi output, and a 50-page multi-copy capability. Also, with clever features like 25%-200% reduce/enlarge, and 2-up and 4-up copying, you can condense reports and save paper.





Efficient document management

OKIOFFICE *84's* Windows-like interface offers an easy way to organise and manage all your documents. For example, it helps you print from any application, send paper documents by email, fax paper and electronic files, and turn paper documents into files for editing.

Environmentally friendly

Environmental factors are a high priority for Oki's product designers, so the OKIOFFICE *84* uses just 0.5W of power in standby mode, and like all Oki products, its operation is virtually ozone-free.

People to People Technology working for you

At Oki, our aim is to provide you with innovative products that help you improve the quality of your communications and make your work easier and more efficient. With OKIOFFICE *84*, you'll enjoy the best in integrated desktop functions - backed by all the support and resource of a major international company that was founded in 1881.

TECHNICAL FEATURES

Digital LED Page Printer

- Advanced Digital LED technology
- 8 pages per minute output
- 600 dpi class resolution

Digital LED Plain Paper Fax

- 14.4k modem/MMR coding
- 6 secs/page transmission
- Dual access
- Up to 300 dpi transmission resolution
- 10 one-touch, 70 speed dial and 5 group dials
- 1 Mbyte memory (approx. 80 pages)
- PC faxing

Scanner

- TWAIN compatible
- Integrated OCR
- 300 dpi resolution
- 6 secs/page scanning

Copier

- 8 copies per minute
- 50 page multi-copy capability
- 2-up and 4-up copying (via software)
- 64 grey scales

Document Management

- Print from any application
- Send faxes from PC
- Manage incoming communications - receive e-mails and faxes into PC
- Send paper documents by fax or e-mail
- Manipulate documents - enlarge or reduce (25% - 200%) put 2 or 4 copies on one A4 sheet

Major Applications

Multiple, high-quality operations from a single, compact device make OKIOFFICE *84* the perfect choice for professional users working in a small or home office, for corporate users working from home, or for any situation where space is at a premium. For personal business users, it's quick and easy to fax, print reports, scan, copy, and manage all types of business documents from one machine. Yet performance is not compromised: OKIOFFICE *84* handles key office functions with the speed and quality you'd expect from a whole row of stand-alone devices, and brings the added value of Oki's well-proven technology.

Specifications

- Type - Integrated Multi-Function Peripheral for Digital LED page printing, faxing, copying, scanning and document management
- Phone - Public Switched Telephone Network (PSTN)/PBX (direct line switchboard)
- Modem - 14.400 with automatic fallback to 12.000, 8.800, 7.200, 4.800 and 2.400 bps
- Data compression - MH, MR, MMR,
- Compatibility - G3
- Transmission speed - 6 seconds /page
- Oki Digital LED Engine - Superior quality and reliability
- Printing Speed - 8 pages per minute
- Document Feeder - 20 sheets
- Recording Paper - 100 sheets
- Document size - A4
- Power consumption - <0.5w in power save mode
- Year 2000 compliant
- Dimensions - 316mm x 383mm x 190mm (W x D x H)
- Weight - Approx. 8kgs
- Win 3.xx, Win 95, 98 and NT 4.0 compatible
